

Jung-Hwan Park

Calgary, AB | (587)-306-6331 | junghwan.park@ucalgary.ca

Education

Bachelor of Science in Software Engineering

Expected Graduation in May 2027

Schulich School of Engineering, University of Calgary

Internship Status

Available starting Fall 2025, seeking internship employment for 12 to 16 months

Skills

Languages: C/C++, Java, Python

Tools: Git, Linux, SQL

Frameworks: TensorFlow, PyTorch, Keras, scikit-learn, Matplotlib, Pandas, NumPy

Office Tools: Word, PowerPoint, Excel

Experience

University Projects

Web Application of a Flight Reservation System – React, UML Modelling

- Worked with a team in designing and developing a complete software project
- Demonstrated understanding of design communication by creating and using UML Diagrams
- Proficiency in object-oriented principles were applied throughout the design process
- Developed the frontend with React framework

Regression model for ETA of food delivery – Python w/ Machine Learning Frameworks

- Developed a regression model to predict food delivery ETA, applying understanding of machine learning concepts and workflows for accurate predictions
- Utilized several regression models such as Random Forests, Gradient Boosting, linear regression, and Support Vector Regression (SVR) to optimize performance
- Employed concepts such as data processing, cross-validation, and pipelines to optimize dataset for training, fine-tune hyperparameters, and facilitate model evaluation

Honors

Jason Lang Scholarship & Dean's List (2024)

- Received based on a GPA exceeding 3.60 in both semesters of an academic year
- Attained a GPA of 3.85 during Fall 2024 and Winter 2025, 3.82 including Summer 2024 for Dean's list

Volunteer Experience

Library Volunteer - Bowness Public Library, Calgary, Alberta (Spring 2020)

- Contributed to the library's mission of promoting literacy and educational enrichment
